Artistic Modesty Panels

A Modesty Panel Adds Privacy to the Artistic Series Desk

The Artistic Modesty Panel is a functional and attractive addition to the Artistic Series of desks by adding both privacy and aesthetics to your desk. These thick wood panels are finished front and back to perfectly match the desk and are neatly accented with black painted aluminum brackets.

Make your desk a custom work of art by adding laser graphics to your modesty panel. Whether it's a corporate logo, your favorite band, horse, car, or just about anything else, laser-engraving can make your desk truly unique.

There are two sizes of Artistic Modesty Panels, which are named Panel Full and Panel Petite. Both have the ability to add custom laser-engraving.

- Adds Privacy to Desk
- Finished on All Sides
- Clean Look
- Laser Graphics Available

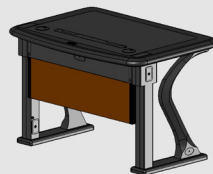

Versions:

Artistic Modesty Panel Petite:

Part #: 511-0028-00-00-0

Artistic Modesty Panels: Features

Wood Stain and Finish

The modesty panel is made of hardwood cherry board that is finished to match the color and texture of the Artistic Series Desks and other Caretta Workspace products. The wood on the panel is finished on both front and back, which gives the panel an attractive look from all sides. Each piece goes through a detailed 10-step finish process which is perfected with time and hand work.

Added Desk Privacy

At ten inches wide, the Modesty Panel adds privacy to the Artistic Series Computer Desks by hiding spaces under the desk from the outside. At the same time, it does not detract from the overall open feel of the modern computer desk.

Attractively Fits In-between Desk Legs

The black painted aluminum brackets on the Modesty Panel easily fit between the desk legs. This creates a smooth transition between the desk and the panel.

Custom Laser-Engraved Panels

Customize your desk by adding laser-engraved artwork to the front of your desk. This could be a corporate logo or other artwork that interests you. We have added horses, cars, bands, amateur radio call signs, mountain scenes, big cats, and many other graphics to our desks. You can provide your own artwork, or let us help to create it for you. This is a great way to make your office truly unique.
