

Loft Series Computer Desks

The Compact Desk that Hides your Wires and Cables

Whether you live in a high rise building nestled in heart of the city, a modern flat in a trendy neighborhood, or in a classic brownstone, your living and office spaces can be tight. When searching for furniture, it's key to find pieces that have the right style, function and look for your space.

With the Loft Series, we've taken all of the best features of a full-sized desk and created a desk designed for tight spaces. At just 45" wide by 25" deep, it can fit anywhere. Three options of hand finished solid wood: natural ash, rich cherry or classic black walnut let you pick the look you want for your office. The desk still features a spacious cable tray with an integrated surge suppressing power strip, premium inlaid writing surface, and lots of accessories to configure the desk the way that you need at a very nice price!

Versions:

Loft Desk, Ash:

Part #: 501-0021-00-00-0

Size: H: 29.25" W: 45" D: 25.5"

Weight: 65 lbs.

Power Strip: 6 Outlet

Loft Desk, Natural Cherry:

Part #: 501-0023-00-00-0

Size: H: 29.25" W: 45" D: 25.5"

Weight: 65 lbs.

Loft Series Computer Desks: **Features**

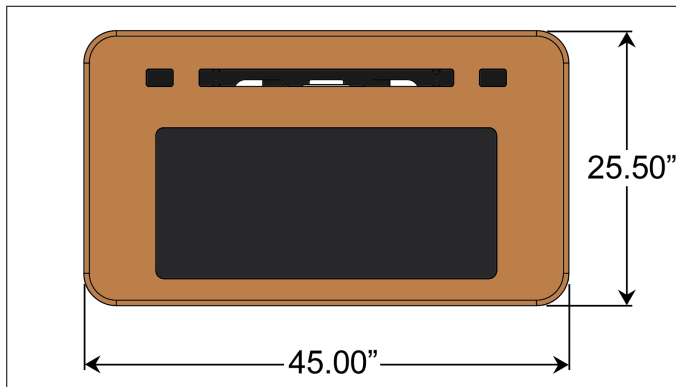

Cable Management

The desk comes equipped with a large cable tray that can hide all of your computer wires and cables. We can't make your cables go away, but we can make them disappear!

Premium Solid Hardwood

The solid ash, cherry or black walnut hardwood used in the desk is selected for its unique grain patterns, then finished with a durable finish. Each piece goes through a detailed 10-step finish process, which is perfected with time and hand work.

Compact Size Desk

At just 45" x 25", the Loft Series of desks were designed to fit in the most beautiful lofts, apartments and condominiums.

Large Surge Suppressing Power Strip

A 6 outlet, surge suppressing power strip is attached directly to the cable tray under the desk top. Plugs are spaced far enough apart so you can plug transformers side by side. There are LED indicators to show that surge suppression is active and the strip is plugged into a grounded circuit. Each strip has a 9' power cord. There are clips on the inside of the desk legs to attractively route the power cord to the floor.

Loft Series Computer Desks: **Features**

Soft and Durable Desk Inlay

RAVE® inlay material is engineered in a unique composite formulation, incorporating both urethane and vinyl chemistry, coated on a proprietary 8 oz. Italian dyed cotton substrate, which provides a high quality indistinguishable from leather.

Lined Locking Drawer

The desk has a locking drawer that is large enough to store a laptop computer. The drawer has a sturdy formed aluminum frame and high quality slides. The drawer has a heavy felt lined interior that makes it nice for storing any of your devices. The ECO-Fi felt lining is a high-quality polyester fiber made from 100% certified recycled plastic PET bottles.

Laser-Engraved Number Badge

Each desk is one of a kind. The number on the laser-engraved badge means that your desk is a numbered piece of art.

Easy-Attach Shelving Options

There are two sizes of desk shelves that can attach to the desk legs. Shelves can be mounted to either side of leg and at various heights. There are eleven mounting holes per leg, which creates dozens of possible shelving configurations. A unique system for mounting the shelf brackets makes it quick and easy to configure and re-configure your shelves at will.
