Modern Urban Desk

Modern Urban Series Computer Desks
The Computer Desk that Hides your Wires and Cables

The Modern Urban Computer Desk is designed with functional laser cut legs that provide many technical features with a modern urban look.

Are you the type of person who must have all of the latest and greatest gadgets that life has to offer? Then the Modern Urban Desk is for you. The unique shelving system gives the ability to mount and store just about anything that you would need in a modern office. Lots of shelf mounting points on the inside and outside of both legs allow the user to configure the desk in any way imaginable.

All of your wires and power cables disappear into large cable channels and a hidden, self-contained 6 or 12 position, surge suppressing power strip.

There are two versions of the Modern Urban Computer Desk, Full and Petite. The differences are desk width, number of drawers and size of the integrated power strip.

- Cable Management
- Solid Cherry Wood
- Durable Desk Inlay
- Integrated Power Strip

Modern Urban Series Computer Desks: **Features**

Cable Management

The desk comes equipped with a large cable tray that can hide all of your computer wires and cables. We can't make your cables go away, but we can make them disappear!

Premium Solid Cherry Hardwood

The solid cherry hardwood used in the desk is selected for its unique grain patterns, then finished with a durable, bright, natural cherry finish. Each piece goes through a detailed 10-step finish process which is perfected with time and hand work.

Available in lighter Natural Cherry stain, or darker Estate Cherry Stain

Soft and Durable Desk Inlay

Inlay material is a high-end touch that eliminates the need for a desk pad. The material makes a nice writing surface and is extremely abrasion resistant.

Micro-Suede Lined Locking Drawers

The desk has one (Petite) or two (Full) locking drawers that are large enough to store a laptop computer. The drawers have a sturdy hardwood frame and metal base to maximize drawer depth. Micro-suede lining provides an elegant touch.

Soft Bull-Nose Desk Edge

The bull-nose edge on the desk gives a finished look to the desk, and it is a nice rest for wrists or forearms when working.

Large Surge Suppressing Power Strip

A 12 outlet (Full) or 6 outlet (Petite) surge suppressing power strip is attached directly to the cable tray under the desk top. Plugs are spaced far enough apart so you can plug transformers side by side. There are LED indicators that show that surge suppression is active and the strip is plugged into a grounded circuit. Each strip has a 9' power cord.

Laser-Engraved Number Badge

Each desk is one of a kind. The number on the laser-engraved badge means that your desk is a numbered piece of art.

Laser Cut Steel Desk Legs

The hard-edged look of the Modern Urban Computer Desk is cut from heavy gauge steel. The legs have lots of mounting locations for shelves on either side of the leg. Large 3" adjustable pads keep desk setting level.
