

Wellston Desk with optional laser-engraved modesty panel.

Wellston Desk Sitting

Wellston Desk Standing

Wellston Executive Sit-Stand Desk

Luxury Motorized Sit-Stand Desk, Loaded with Features

The Wellston Executive Sit-Stand Desk is a highly engineered, precision crafted, solid hardwood desk that raises and lowers with the flick of a wrist. We've noticed there are a lot of sit-stand desks in the world, but there aren't many that are attractive or functional enough to make the centerpiece of your office.

The Wellston comes in two finish options (Natural Cherry and darker Estate Cherry) and two sizes (50 or 62 inches wide.) The desk will move to any height between 29 and 50 inches, or to any of the four preset positions using LINAK technology. You can also set wellness goals and track individual usage metrics with the desk controller mobile device or your computer.

As with all Caretta Workspace products, assembly is a snap and quality is at its highest. We've taken the best of Caretta features and added even more with the Wellston Executive Sit-Stand Desk.

There are two size versions of the Wellston Executive Sit-Stand Desk, and two finish colors to choose from. The desk can also be ordered with a drawer or keyboard tray.

- Cable Management
- Solid Cherry Wood
- Durable Desk Inlay
- Integrated Power Strip
- Motorized Adjustable Top

Wellston Executive Sit-Stand Desk:

Part #: 501-0031: Wellston Desk Standard Size

Wellston Executive Sit-Stand Desk: **Features**

Cable Management

The desk comes equipped with a large cable tray that can hide all of your computer wires and cables. We can't make your cables go away, but we can make them disappear!

Height Adjustable from 29" to 50"

The high quality, smooth electric desk lifters quickly adjust the desktop from a minimum sitting height of 29" to a maximum standing height of 50"

Wood Stain Options

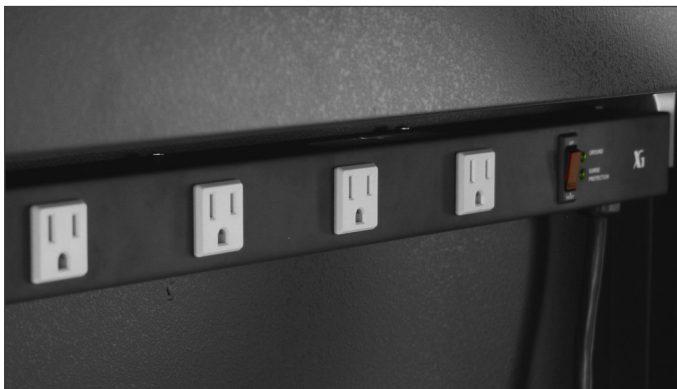

Natural
Cherry

Estate
Cherry

Premium Solid Cherry Hardwood

The solid cherry hardwood used in the desk is selected for its unique grain patterns, then finished with a durable and bright, cherry finish. Each piece goes through a detailed 10-step finish process, which is perfected with time and hand work.

Available in lighter Natural Cherry stain, or darker Estate Cherry stain.

Large Surge Suppressing Power Strip

A 12 outlet (62" wide desk) or 9 outlet (50" wide desk) surge suppressing power strip is attached directly to the cable tray under the desk top. Plugs are spaced far enough apart so you can plug transformers side by side. There are LED indicators to show that surge suppression is active and the strip is plugged into a grounded circuit.

- 15 Amp resettable circuit breaker
- 1824 joules of surge suppression

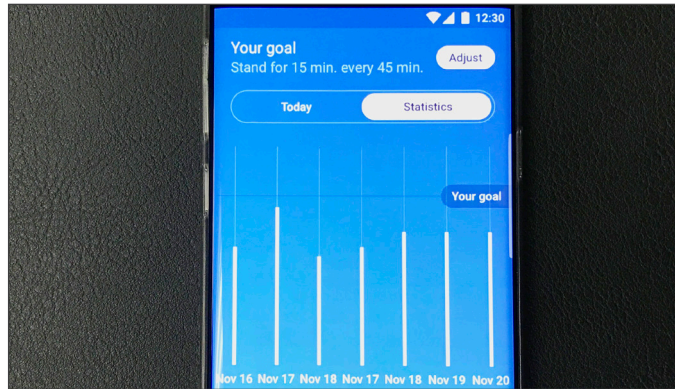

Wellston Executive Sit-Stand Desk: **Features**

3 Ways to Control the Desk Height

To control the desk height, use the modern, discreet controller. With a brief nudge up or down, the desk will move to any height between 29 and 50 inches, or to any of four preset positions. You can also control your desk with a Bluetooth enabled mobile device or from your desktop computer.

The control has reminders that you can program to meet your wellness goals.

Wellness Features

You can set wellness goals and track individual usage metrics with the desk controller, app on your mobile device or your computer desktop.

Just download the "LINAK Desk Control" app from Google Play or the App Store. You can get reminders to stand and track the personal usage of your Wellston Desk.

Qi Wireless Device Charger

Technology Options

There are several technology options that can be added to the desktop, such as a Qi wireless phone charger, USB 3.0 ports with media card readers, and the Caretta Power Block, which makes two power plugs available at your fingertips.

Cableway for Power and Ethernet Cable

There is a flexible cableway, made by IGUS, that the desk power cable runs in. This cableway not only cleans up the power cable, but is large enough for you to run a shielded Ethernet cable, or other cabling that you would like to send to your desktop.

The 1" x 1" cableway retracts behind a panel when the desk moves into the sitting position.

Wellston Executive Sit-Stand Desk: **Features**

Soft Bull-Nose Desk Edge

The bull-nose edge on the desk gives a finished look to the desk, and it is a nice rest for wrists or forearms when working.

Soft and Durable Desk Inlay

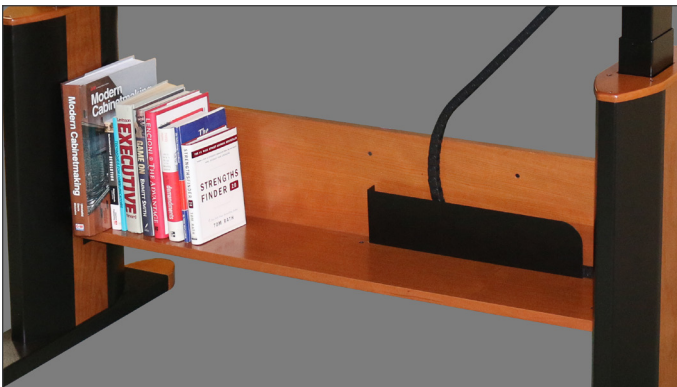

Inlay material is a high-end touch that eliminates the need for a desk pad. The material makes a nice writing surface and is extremely abrasion resistant.

Micro-Suede Lined Locking Drawer or Keyboard Tray

The desk has a locking drawer that is large enough to store a laptop computer. The drawer has a sturdy hardwood frame and metal base to maximize drawer depth. Micro-suede lining provides an elegant touch.

An optional keyboard tray is available in place of the drawer.

Lower Desk Shelf

There is a standard 7.5" wide storage shelf that is under the desk. This shelf is a perfect place for your personal items, books and binders, or other devices.

The shelf is set back far enough that it is out of the way when the desk is in sitting position.

Wellston Executive Sit-Stand Desk: **Features**

Monitor Mounting

If you need single or multiple monitors, if you need to move each monitor individually, or move them as a pair, there are several monitor arms available. There is a thru-hole monitor arm mounting location on the desktop so arms are sturdy and secure.

If you like to set up your monitors on a riser shelf, there is one that can securely attach to the desktop. The Desktop Riser Shelf has an optional LED light bar.

Computer Mounting

If you have an all-in-one computer like an iMac, it sits directly over the desk cable tray so your cables disappear into the desktop.

If you have a tower computer, there are mounting options for outside the desk, or under the desk. The computer rides up and down with the desk, so you won't need extra-long cables. This mount can fit even larger CPU towers.

Tower dimension: max: 19.5" x 9", min: 9.5" x 4"

Modesty Panel with Optional Laser Engraving

For added privacy and an attractive look, there is a 10.5" tall modesty panel on the front of the desk.

You can personalize your desk by adding custom laser-engraving to a solid wood inlay in the modesty panel. This is great for corporate logos or your other favorite graphics.

Optional Locking Casters

If you need to make your desk more mobile, lockable casters can replace the leveling foot pads under the desk legs. These heavy-duty nylon casters are perfect for the desk that needs to be moved often. The casters add 2.75" to the minimum height of the desk.

Each standard desk foot has two 3" round plastic leveling pads.

Wellston Executive Sit-Stand Desk: Features

Conference Tables

Full Family of Tables and Accessories

There are many matching companion products for completing your Wellston office. The Caretta Side Table, Meeting Table and Conference Table can add to your work surface area. File cabinets, hutches, and bookshelves create more storage options.

File Cabinets

Hutches/Bookshelves

Laser-Engraved Number Badge

Each desk is one of a kind. The number on the laser-engraved badge means that your desk is a numbered piece of art.

LINAK® 
WE IMPROVE YOUR LIFE

**Guderup, Denmark
Louisville, KY**

- Speed: 38mm per second
- Low noise

High Quality LINAK® Lifting Columns

The desk raises and lowers with LINAK® electric lifting columns that provide a stable, smooth, quiet, elegant movement.

LINAK® makes some of the highest quality desk lifting columns in the world.

Easy Shipping and Assembly

The desk arrives to you with its major assemblies already put together and pre-wired. This makes assembly a snap!

It arrives in 3 boxes by standard UPS ground, or similar. For orders with multiple desks, it will arrive by freight and be delivered inside your location.

We ship direct from our factory in Ohio to locations across the USA and Canada.
